

## **The Money Monitor**

*...keeping track of how Washington wants to spend your money*

**Week of December 30, 2002-January 3, 2003**

**The House was not in session this week.**

Net five-year cost of House authorizations passed by the House *this week*:  
**\$0.00**

*Year-to-date total* of net five-year costs of House-passed authorizations:  
**\$504,161,450,000.00\***

\*This figure does not include the cost of **S. 990** (Pittman-Robertson Wildlife Conservation and Restoration Programs Improvement Act), which passed the House on the legislative day of November 14, 2002. This figure also does not include the cost of **H.R. 3450** (Health Care Safety Net Improvement Act), which passed the House on October 1, 2002. When complete cost estimates for these bills become available, the RSC will update "The Money Monitor" accordingly.

---

Net five-year change in House-passed mandatory spending *this week*:  
**\$0.00**

*Year-to-date* net five-year change in House-passed mandatory spending:  
**\$235,966,000,000.00**

---

Net one-year cost of appropriations passed by the House *this week*:  
**\$0.00**

*Year-to-date total* of net one-year costs of House-passed appropriations:  
**\$434,144,900,000.00**

---

Net five-year revenue change by House bills passed *this week*:  
**\$0.00**

*Year-to-date* net five-year revenue change by House-passed bills:  
**-\$23,944,000,000.00<sup>#</sup>**

<sup>#</sup>This figure does not include the revenue implications of **H.R. 5728** (Tax Administration Reform Act), which passed the House on November 14, 2002. When a complete revenue estimate for this bill becomes available, the RSC will update “The Money Monitor” accordingly.

---

An authorization explicitly allows funding for a certain program and / or directs a federal agency to take a certain action. Authorizations express the House's *intent* to spend, however, actual funding is provided through the annual appropriations process. **Authorizations with no net cost, bills that would result in no significant net change in mandatory spending or federal revenue, and private-sector costs from federal mandates are not reported here.**

Mandatory spending directly establishes an appropriation. No subsequent action is required for the money to be spent.

All numbers in “The Money Monitor” are positive unless otherwise indicated.

**The costs of conference reports are not recorded here. “The Money Monitor” only accounts for the costs of bills as they first pass the House (with the exception of bills that contain major cost-related changes upon subsequent House passage).**
